

Building Permit Requirements Garden Suite (Detached)

Pre-application Approvals Checklist

Before finalizing the design ensure that the garden suite you wish to build either meets the requirements of or is not affected by the following regulations or requirements.

ZONING Review the relevant zoning by-law with a zoning plans examiner to confirm the use, parking, size and setback limitations that affect your property.

Preparing the Building Permit Submission

The following approvals must be obtained before a building permit application can be submitted.

GARDEN SUITE CUSTOM HOME APPROVAL Submit a fully dimensioned site plan, floor plans, elevation drawings and property survey through the City's Urban Design Department for review and approval. A grading and drainage plan prepared by a professional engineer or surveyor (OLS) is required for Development Engineering. The site plan shall also include the location and setback information for the Garden Suite. A survey stamped by a surveyor (OLS) is required to verify the property configuration and the location of the existing dwelling unit.
